

**TIMES ARE CHANGING**

# THERE'S A NEW KING IN TOWN

## **SMARTconcept: The Next Evolution Beyond V5 Sensor Technology**

As Denmark recently celebrated a monumental royal succession after 52 years under Queen Margrethe II, we at CTcoin find ourselves on the brink of another significant transition. The V5 Sensor Technology is abdicating, and SMARTconcept becomes the new "King in Town".

### **Prepare for the Future Today**

For those currently utilizing V5 Sensor Technology, the time to plan for a seamless integration with SMARTconcept is **NOW!** We are phasing out the V5 technology in 2024, and we're here to support your transition to the forefront of coin counting technology.

### **The SMARTconcept Advantages:**

- 1 Near-Perfect Coin Recognition:** Achieve close to 100% accuracy in coin identification.
- 2 More Attractive Pricing:** Benefit from cost-effective solutions without compromising quality.
- 3 Future-Ready Technology:** Leverage advancements in AI and machine learning to stay ahead.
- 4 Full mechanical compatibility**

## **SMARTCONCEPT**

Powered by CTcoin™

Don't wait to explore how SMARTconcept can elevate your operations. Contact us **NOW** for a personalized transition plan and embrace the technology of tomorrow with ease.

Warm regards,

Your CTcoin Team
